Solar Freezer LD-LSF-A10

Overview

This 100 litres chest-type Solar Freezer is an eco-friendly, safe, portable, high-performance freezer for all sorts of fluid banks, research and development etc. including high temperature resistance for quality performance.

Features:

- Designed to ensure high temperature resistance and minimum energy consumption
- Equipped with hermetic domus compressor with integrated electronic control panel
- Environment friendly CFC free refrigerant R134a is used
- Design with single top door with door lock to prevent unauthorized access
- Automatic low voltage disconnection for protection
- Low maintenance and easy to clean
- Fast cooling with optional temperature control
- Freezer is equipped with drawers for safe storage

Applications:

Widely used in body fluid banks, food industries, life science, biotechnology, genetics, research and development.

Specifications:

Capacity	100 Litres
Net Weight	30 kg
Carton Size	580 × 610 × 870 mm
Gross Weight	33 kg
Input Voltage	DC 12 V / 24 V
Additional Parts	Solar panel: 200 W; Battery: 150 Ah; Charge controller: 12 V / 24 V - 15 A
Power Consumption	65 W
Product Size (L × W × H)	535 × 535 × 845 mm
