Industrial peristaltic pump LD-LIVP-A11

Overview

Industrial peristaltic pump LIVP-A11 is a dual channel precise dispensing peristaltic pump to transfer large amount of fluid in industry. Equipped with varied flow range and speed accuracy it allows reversible operation to pump in both directions. Includes time dispensing, volume dispensing and copy dispensing mode to meets all kinds of complex dispensing requirements. Provides high levels of volumetric accuracy without contaminating the fluid during the operation. Interchangeable pump heads help in delivering smooth and low pulse flows

Features:

- Touch screen display to set dispense volume, stop time, copy number etc
- Autosave™s running parameters on power or system failure
- Reversible operation allowing pumping in both directions
- Easy liquid auto dispensation by time or volume
- Acid, alkali, sodium corrosion resistant
- Dust and moisture proof circuit board
- Adjustable rotating speed
- Robust and protected with ABS plastic housing
- Low noise operation

Specifications:

Weight	15 kg
Display	Touch screen display
IP grade	IP 31
Flow Range	0.01 - 13 L/min
Speed Range	0.1 ~ 600 rpm
Power supply	AC 220 V $\pm 10\%$, 50 Hz / 60 Hz
Flow Accuracy	0.5 %.
No of channel	2
Speed Resolution	1 rpm
Power Consumption	< 300 W
Relative Humidity	< 80 %
Ambient Temperature	0 ~ 40 °C
Dimensions (L x W x H)	350 x 235 x 315 mm
